

Nordic co-operation in the fields of road and tunnel lighting was established in two groups under NMF in 2012

- a group for road lighting
- a group for tunnel lighting.

The groups represent the Nordic road authorities with the scope of

- initiating and conducting shared Nordic developments
- establishing a common knowledge basis
- proposing common performance requirements
- providing broad information

The group for road lighting held its first meeting in Stockholm in October 2012. The work on tunnel lighting was initiated by a workshop in Stockholm in March 2012 and continued by a meeting in Trondheim in October 2012.

The contact persons for both groups are:

Norway:	Per Ole Wanvik	per.wanvik@vegvesen.no
Sweden:	Henrik Gidlund	henrik.gidlund@trafikverket.se
Denmark:	Kenneth Kjemtrup	kk@vd.dk
Finland:	Pauli Velhonoja	pauli.velhonoja@liikennevirasto.fi
Iceland:	Björn Olafsson	bjorn.olafsson@vegagerdin.is
